EXPERIENCE

Freelance System Developer August 2024 – December 2024
- Designed and implemented an offline system in C# for managing patient health records, including features for data entry, search, and reporting.
- Focused on creating a secure and efficient solution to handle sensitive health information without internet reliance.
- Developed a user-friendly interface and performed extensive testing to ensure reliability and compliance with privacy standards.
- Carry out quality assurance tests to discover errors and optimize usability.
